WILL APPEAR AGAIN

MANY REJECTED MEN WILL BE RE-EXAMINED DUE TO CHANGES.

NEW REGULATIONS SENT

Will Take in Many Men Already Rejected on Defects in Height, Weight, Teeth or Hearing.

Many men who were rejected in the examinations given this week by the local exemption board on account of under weight, eyes, ears or teeth, will have to be re-examined, according to notice received by the board this morning of the revised regulations to govern physical examination, as issued yesterday by Surgeon General Gorgas of the army. The changes deal for the most part with questions of proportionate weight and height and may result in the acceptance of a number of men who were rejected heretofore on physical grounds.

The local board was somewhat at sea today in knowing exactly how to proceed. They were busily at work in sorting out the examination papers of the men who appeared this week. They will not get to work on the claims for exemptions for several days yet as the accepted man has seven days in which to file his claim and affidavits. The board was also undecided about whether to call more men for physical examination, as the indications are that enough men who were in the first call will be able to pass the new examination to fill up the county's quota of 202 men.

The new regulations granted an underweight of from five to six pounds for men between sixty-four and sixty-seven inches in height; seven to eight pounds between sixty-seven and sixty-nine inches; nine to ten pounds between seventy and seventy-four inches, and twelve pounds above seventy-five inches. The effect of the instructions is to reduce the normal weight requirements for tall men.

An additional half-inch allowance on chest expansion also is allowed to men above sixty-eight inches in height where there is no sign of disease.

Men with poor teeth will also be more closely scrutinized hereafter. Where dental work will restore the teeth they will either be enrolled and the work done by army dentists, or allowed time to have the work done for themselves.

A punctured ear drum is found to be no barrier, providing the hearing is half normal. Modifications are made also in the sight requirements, which will allow physicians to accept men despite some defects of vision.

Local boards are urged not to stop (Continued on page 2.)

MADE CANVASS OF HIGHLAND

Mrs. A. R. Robinson Urges Women to Register—Booth Will be Located at Wallace Farm.

Mrs. A. R. Robinson, chairman of the Highland district, made a thorough canvass of that vicinity Wednesday in the interest of women's registration day, Saturday. A place has been provided for registration at the foot of the Wallace Hill on the Lee road northeast of Maryville. The women in charge will be Mrs. Robinson, chairman; Mrs. Kittle Young of Kansas City, who is a guest at the home of her brother, Levi Wallace, and Miss Anna Hazel Wallace. Mrs. Young will be a valuable assistant, as she helped in registering 26,000 women in Kansas City on registration day, July 28.

ROBEY TO MONTANA

Maryville Boy Gets Good Position as Supervisor of the Consolidated Schools.

Mayor Robey received a letter this morning from his son, Donald, who is now at Menominee, Wisconsin, taking a special course at the Stout schools during his vacation. The young man has had charge of manual training department of the schools at Eugene, Oregon, for some time but has accepted a position as supervisor of the consolidated schools at Three Forks, Montana, for the coming year at an increase of \$300 per year in salary. He was offered an increase to remain where he was but thought the new location offered better opportunities. His many friends here will be glad to learn of his success in his chosen field. He is a bright, industrious young man and is losing no time in fitting himself for the best there is in his profession.

He will make a short visit here on his return from Wisconsin to the West.

Harold Staples, another Maryville boy, has accepted a position in the grade schools at Klamath Falls, Oregon, where he will teach the coming season.

TO TREAT THEM IN FRANCE

American Soldiers Wounded Will not be Sent Home, According to the Present Plans.

Special to The Democrat-Forum. American Training Camp, France, Aug. 10.—All American soldiers who are wounded will be treated in France, and none will be sent to the United States, according to the present plans of the officers in charge of the first expeditionary force. The closest cooperation between the army medical corps and the Red Cross is already assured.

Charles Miller of Burlington Junction was in Maryville on business yesterday.

PLANS FOR THE FAIR

FREE ACTS CONTRACTED FOR AND EXHIBITS PROMISING.

SEASON TICKETS \$2.25

Fine Racing Programs and Big Stock Show Will be Given—Fair Is During Week of Sept. 3-8.

Plans for the county fair in Maryville, September 3 to 8, are being arranged for and all of the free acts are contracted for, and the stock show and agriculture exhibits are very promising. Season tickets to the fair will be \$2.25. Single admission is 50 cents a day and 25 cents for the night show. There will be no pass out checks this year. A. O. Mason, president of the fair association, says, except the season tickets will have that privilege.

Mr. Mason, in speaking of the fair said today:

"Everyone in the county should be interested in making it a success. Our agriculture exhibits should be big. Oats and wheat are being threshed and can be made ready for exhibition. Our crops as a whole were never brighter for good results and the farmers are all very well pleased with the outlook, and for that reason we should have our agriculture and floral hall departments filled."

"Our stock should commence to be getting ready now as it takes a little time to fix them up as we are getting the pens and stalls all ready for the occasion."

"As to the racing program we are looking ahead and have the promise of more horses and better ones than we have had heretofore. We have also plenty of entries so as to make our racing department assured. Some of the boys attended the Brookfield fair yesterday and have promises of some good horses from that point."

BOY SCOUTS WILL TAKE HIKE

To Go on a 4-Mile Trip to 102 River to Spend Saturday and Sunday.

The members of the Wolf Troop, Boy Scouts, will take a four-mile hike tomorrow morning and will pitch camp near the 102 river near the Carr bridge where they will spend Saturday and Sunday. Scout Master A. M. Crooke and his assistant Elmer Holt, will accompany the boys.

The scouts will leave on their hike at 7 o'clock. Instructions will be given the boys in signal work following the same code as used in the army and navy, and the setting up of the camp.

The Scouts who will take the hike are John Price, Arthur Garrett, Truman Landon, Jack Jones, Lawrence and Orena Masters, Floyd Cook, Francis Burris, Gerald Keef, George Harman, Allen Shupe, Glenn Trullinger, Wesley Hagins and Martin Peniston.

TO AMBULANCE SERVICE

Money From Sale of "The President's War Message" Will go to Boys in France.

In the Alderman-Yehle Dry Goods store are twenty-five small books called "The President's War Message," which was delivered at a joint session of both houses of Congress, on April 2, 1917.

These books which are on sale, were placed in the store by the Grossett and Dunlap Publishing Company, and the money from the sale of these books will be turned over to the American Ambulance Field Service in France.

Grossett and Dunlap have succeeded in sending two units to France from the sale of these books. A number of books have been sold.

THE 6th ORDERED TO DUTY.

To Entrain Tonight for Nevada—The Fourth Is Expecting Orders.

Special to The Democrat-Forum. Nevada, Mo., Aug. 10. — General Clark issued orders today for the Sixth Missouri Regiment to entrain tonight for Nevada.

The Fourth Regiment is still in St. Joseph, but railroad cars have been furnished and the boys expect orders to entrain at any time.

Judge and Mrs. George Hepburn and family and Mrs. Hepburn's mother, Mrs. Roberts of Denver, were in Maryville today.

NEW ORDERS ISSUED

BY PROVOST MARSHAL TO LOCAL BOARDS TO MOBILIZE DRAFTED.

WILL HAVE ALTERNATES

To Replace Any Missing Men—Boards Urged to Reduce Discharges for Dependency.

Regulation under which the new national army will be called to the colors beginning Sept. 1, were issued last night by Provost Marshal General Crowder. They detail the program under which every soldier of the draft army will be accepted by the adjutant general of the training cantonment to which he is assigned.

Two hundred thousand of the first 687,000 will be called up to Sept. 1, and forwarded to their camps before Sept. 5. Assembling levies at entraining points, providing shelter, food and transportation and giving their actual induction into military life, is entrusted to civilian local boards. Until the men reach camp they will not be in contact with uniformed officers.

The actual call for men will go from the provost marshal general to the state adjutant general. Each local board will be informed of its quota and the adjutant general will fix the date when men from his state shall entrain for camps.

From the time specified for reporting to the local board for military duty, each man in respect of whom notice to report has been posted or mailed, shall be in the military service of the United States.

5 Alternates From Each County.

For each county five alternates will be summoned to board headquarters in addition to men selected to fill the board quota. They will be held at the assembling point until train time to fill in vacancies should any of the levy fail to report.

The board will select one man from the levy to place in charge of the party for its trip and he will name a second in command. The other men will be told that orders of these two men must be obeyed under pain of military discipline.

Final verification of the list will be made just before entraining and if any one is missing an alternate will be sent in his place.

Boards to Gather Up Stragglers.

After the departure of the levy for camp, the local boards will gather up stragglers. If there is evidence of willful violations of orders the offender will be reported to the adjutant general of the army as a deserter and the local police will be asked to arrest him on sight and turn him over to the nearest army post for trial. Where there was no intention to desert and the missing man reports of his own will, the board will send him on to camp with an explanation and a recommendation as to his culpability.

Arrived at the camp, the party will undergo final physical examination by army doctors. If any are rejected the local board will be notified and an alternate sent forward for each case.

Must Reduce Discharges.

Wholesale claims for exemption from the army draft, reported from many sections, caused Provost Marshal General Crowder to telegraph the governors of the states that local boards must "reduce discharges for dependency to a far more restricted class and very necessitous and clearly defined circumstances."

In some districts 80 per cent of registrants are filing claims for discharge on the ground of dependent relatives. Such a condition indicated, Gen. Crowder said, unfair advantage being taken of regulations designed to protect men who properly should be exempted from military service and threatens to interfere seriously with raising the national army.

IN CONFERENCE WITH KAISER

Chancellor Michaelis and Austrian Ambassador Received in Audience by the Kaiser.

Zurich, Aug. 10.—German Chancellor Michaelis, Field Marshal Archduke Frederick of the Austrian army, and the Austrian ambassador have been received in audience by the Kaiser, according to advices received from Berlin today. It is assumed that the audience granted by the Kaiser took place at the German great headquarters.

MANY AT THE PICNIC

A FINE TIME AT SUNDAY SCHOOL ENTERTAINMENT YESTERDAY.

DUNKARD SCHOOL WINS

Secures Loving Cup for Scoring the Most Points in Track Meet—An Annual Affair.

About 800 persons attended the Sunday school picnic held yesterday at Gaynor City. Seven different Sunday schools were represented. They were: Dunkard, New Hope, Baptist, Maple Grove Methodist, Gaynor Methodist, Gaynor Christian, Parnell Methodist, and the Protestant Methodist and Baptist organization at Parnell.

A concert was given in the morning by the Sheridan band, after which followed an elaborate dinner, which had been prepared by the women of the community. A number of persons outside of the township were served.

A program which had been arranged by the different Sunday schools was given in the afternoon. A second concert was given by the band, and Dr. S. A. Coile, pastor of the First Presbyterian church of Maryville, gave an interesting address on "Sunday School Work."

One of the interesting features of the program was a drill by the Boy Scouts in uniform, directed by W. A. Stickle. A number of young ladies of the Maple Grove Sunday school gave a pretty flag drill, and Miss Mattie Evans of Parnell and Miss Verna Corp of Gaynor favored the audience with solos.

From 4 till 5 o'clock a track meet for the members of the Sunday schools was held. The Dunkard Sunday school scored the highest number of points, and was awarded a silver loving cup by the Holmes Jewelry store of Maryville and the township Sunday school association.

The association has planned to make this event an annual affair and home coming for the people of Independence township. They were very successful in their first attempt and hope to have a larger crowd and a better entertainment next year.

Jitneys Flourish in Kansas City.

Special to The Democrat-Forum. Kansas City, Aug. 10.—All indications are that no street cars will be moved here today. It is the third day without a wheel being turned and no violence has been committed. Three thousand jitneys are in service and doing a rushing business.

Guests at Duncan's.

Mrs. A. L. Wait and little son, Billy Duncan, of Tulsa, Okla., are visiting Mrs. Wait's parents, Prof and Mrs. B. F. Duncan of Maryville. Mrs. Mollie Kavanaugh of New Hampton, Mo., is also a guest of Professor and Mrs. Duncan.

MAKING PROGRESS

BRITISH CAPTURED VILLAGE OF WESTHOOK IN THEIR RUSH.

FRENCH ARE GAINING

Allies are Preparing for Another Infantry Drive in Belgium—Chemical Works Explosion.

Special to The Democrat-Forum. London, Aug. 10. — British troops completed the capture of the village of Westhook in their forward rush last night and also secured the remaining enemy positions on the new high ground known as West Hookridge, the war office announced today. Meanwhile the French continued to make progress east of Bieschoote and north of the town. A successful raid was conducted along a wide front east of Monchy.

Another Drive in Belgium. London, Aug. 10. — British and French guns are preparing the way for another infantry drive in Belgium. The cannonading is particularly savage around Bieschoote and Harlebeke, where the artillery roars night and day without let up.

Explosion in Chemical Works. London, Aug. 10. — An explosion in the chemical works last night is reported to have killed or injured a score of workers. Fourteen bodies have been recovered.

LATE TELEGRAPH NEWS.

Special to The Democrat-Forum. Springfield, Ill., Aug. 10. — Nine thousand coal miners of central and southern Illinois are on strike today, the majority demanding nine hours pay for eight hours work.

Clay Center, Kans., Aug. 10. — Ex-President Taft is sick in a local hotel. He took food this morning for the first time in two days and attending physicians say his condition is improving.

Salina, Kans., Aug. 10. — Fearing "cons equae nes" of second marriage before divorce is believed responsible for the suicide today of Florence Cole of Wakenney seven hours after she married Chris Fellers of Hays.

New York, Aug. 10.—All danger of a general strike of carpenters at work on government war construction throughout the country was avoided today when an agreement covering the points in dispute was signed here by contractors and labor representatives. The settlement is declared to be a complete victory for the carpenters.

A SINGING FESTIVAL

(Continued from page 1.)

life, and it should have expression here in Nodaway county, just as it has expression in almost every other county all over the country.

"The main benefit of community singing is to get together everybody in Nodaway county, and to get them together in such a manner that they will enjoy getting together. It is an acknowledged fact that more happiness can be found in making music than in listening to it; that the active is preferable to the passive.

"The little singing that has been done thus far at the band concerts has already brought marvelous results. When the audience joined in singing 'The Star Spangled Banner,' while played by Kryn's band at Chautauqua, Mr. Kies, the manager of the Chautauqua, pronounced it wonderful. He said it was the best he had ever heard in a town of Maryville's size.

"In all the larger cities of the country, and many of the smaller ones, community singing has gained a firm hold. In New York on last Memorial Day, the people lined the streets for three miles and sang just for the love of singing. At Christmas time, when the spirit of good will reigns among men, there is a desire to get together and

sing, and the world would be a better place if the practice were continued throughout the year.

"I should like to establish a community chorus in Nodaway county with the sole object in view of bringing these people together, and to have a great singing festival in Maryville, such as the one we had in Red Oak, Iowa, where 15,000 people from miles around joined in song. It can be done, and must be done by the hearty co-operation of each and every individual in the county."

Miss Stella McDowell, who has been visiting for the last two weeks in Okmulgee, Okla., with her brothers, Ed and Frank McDowell, and in Ames, Okla., with her brother, Fred McDowell, returned last night to her home in Maryville.

Mrs. M. L. Powell went to Stanberry today to visit for a few days with relatives.

Raymond Murrin left today for Atchison, Kan., to visit for a few days with his cousin, Sister Mary Augusta.

Mrs. J. L. Tobin and daughter, Thelma of DeQueen, Ark., are guests of Mrs. M. Tobin.

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be

rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote.

S. S. S. is sold by all druggists. If you wish medical advice as to the treatment of your own individual case, write to-day to Chief Medical Adviser, Swift Specific Co., Dept. B Atlanta, Ga.

—of course you want your business to be successful

Ten Dollars will not buy as much advertising as a thousand, but it will buy just as real advertising as a thousand. In many cases it is the small business that has the greatest need for advertising. Small beginnings seem to be fairly well established laws of nature. The ten dollar advertised business may grow to many thousands.

If a merchant expects to dispose of his goods he must talk about them. The people in your community must be shown. Of course you can have a personal talk with but few of the buyers. It is getting to be the fact now days that a big part of merchandise is sold before the buyer ever enters the store.

Use advertising display space that the reader will see. People are looking for the ads because this is the way many of them are doing their buying, through the advertising.

This season of the year is the opportune time for selling goods that will in a few weeks be no longer seasonable. If these goods are held over they will depreciate in value and even become unsalable. You can not sell a last year's style, as they will become later on. And unless you tell the buyers about your goods you can't expect to sell them.

Judiciously advertised goods are a paying investment. Because they turn the money of the shop keeper many times faster than the non-advertised goods. Non-advertising isn't saving money. It is a good way to lose money.

When you take into consideration the statistical fact that 86 per cent of the business failures are the non-advertisers, you can appreciate how big a factor advertising is in building up a business.

To the men who do not advertise this ought to be a mighty convincing proof that advertising has a great deal to do with a successful business

OUR ALASKAN PARK

It Is Classed as One of World's Colossal Spectacles.

GRANDEUR OF THE SCENERY.

Mighty Mount McKinley, Most Lofty of All Our Country's Towering Peaks, Crowns the Titanic Glory of the New-east of Uncle Sam's Reservations.

The national park in Alaska which congress created in the spring of 1917 is one of the monster spectacles of the world. To say that Mount McKinley rises 20,300 feet above sea level and that it is the loftiest peak in America is to convey no idea whatever of its grandeur. There are several mountains in the Himalayas which materially exceed its height, one which rises more than 25,000 feet above sea level, and yet Mount McKinley to the observer is loftier than any of these.

The reason is that the greatest Himalayas are seen from valleys 7,000 to 10,000 feet in altitude, while Mount McKinley rises abruptly from valleys 3,000 feet and even less in altitude. The visitor to the Mount McKinley National park will look up more than 17,000 feet to the double peak, the upper 14,000 feet of which are covered with perpetual snow.

This enormous mass is the climax of the great Alaskan range which extends roughly east and west across southeast central Alaska, separating the vast northern inland from the more populated country whose shores are the gulf of Alaska. The range parallels the mighty Yukon many miles to its mouth.

The reservation contains 2,200 square miles. Its northern slopes, which overlook the Tanana watershed with its gold mining industry, are broad valleys inhabited by enormous herds of caribou. Its southern plateau is a perpetual winter wilderness through which glaciers of great length and enormous bulk flow into the valleys of the south. In this National park, which the railroad now building by government into the Alaskan interior will open to the public, America possesses Alpine scenery upon a titanic scale. From the stormy south Mount McKinley is wholly inaccessible. But from the plains of the north valleys of easy grade lead one from another to its foot.

"It is an awe inspiring region of massive mountains and ice capped peaks," Belmore Browne of the Campfire club testified before the senate committee on territories. "The Piedmont plateau that follows the range affords a beautiful roadway direct to Mount McKinley, and when you reach the plateau all difficulties vanish and you see a view that is unique on this earth. You see the huge mountain line of perpetual snow, rising like a great wall on the southeast. You can ride a pony to where Mount McKinley rises 17,000 feet above you in a glittering wall of snow and ice. It is flanked by stupendous mountains, which make a wonderful setting for the monster."

North of the vast mountain, however, is a rolling country dotted with beautiful lakes and forests and inhabited by enormous herds of caribou. In fact, the special reason why congress set apart the region at this time was to conserve the wild animal life in advance of the invasion of hunters which the new government railroad will bring into Alaska, the road as projected running within twenty miles of this greatest of nature's spectacles.

Charles Sheldon of the Boone and Crockett club told the senate committee that several times he has counted as many as 500 mountain sheep in a single day of ordinary travel and that herds of caribou numbering from 1,200 to 1,500 are frequently seen.

As a game refuge and breeding ground the new National park conserves Alaskan game which elsewhere is rapidly disappearing. As in the case of the Yellowstone National park, the reservation serves as a perpetual center of game supply for large neighboring areas.

These animals do not greatly fear man, because they have never been hunted. One can approach the great herds of caribou. There are also many Alaskan bears of great size.

An extensive educational campaign has been inaugurated by the department of the interior for the information of the people concerning the hitherto unknown quality and extent of our national parks, of their scenic and recreational possessions, under which public interest in our national parks is growing with unanticipated speed, and public realization, interest and practical use is the condition as well as the object of national parks development. Public patronage of the parks has increased rapidly and steadily.

Co-operation in the public interest has been promoted between railroads and the government, between concessions and park managements and between parks. Large private capital has been induced to enter several national parks for the enlargement and improvement of hotel and transportation service. Prices to the public have been decreased wherever possible.

WOMEN AND PATRIOTISM.

Today the United States government, through President Wilson, is calling the women of this country in a spirit of true appreciation at a critical moment of the world's greatest war. What sort of record do the women of Nodaway County wish to make before the whole United States?

The appeal of country to them is to register their loyalty and patriotism without regard to their views on suffrage or on politics. The woman who registers today records her dignity on the muster rolls of the United States and pledges her dedication to the great cause to which the Nation has pledged its honor.

Some of the things you might mention on that registration blank, August 11.

If You Are Just a Young Girl.

Conservation by wearing modest, inexpensive clothes.

Helping mother around the house.

DISCUSS REGISTRATION

Leaders of Movement Attend Meeting at Myrtle Tree—Another Meeting at Garment Factory.

Miss Jessie Pacher and Mrs. W. C. Van Cleve attended the meeting of about fifty members of the Myrtle Tree community club last night and explained the objects and operation of the women's registration to be held tomorrow. Much interest was manifested by the women of the club and indications are that there will be a large registration from that vicinity. The registration place for that district will be at the Myrtle Tree school house.

An explanation meeting will also be held this afternoon at the McDonald Garment factory where 40 women are employed.

BARN DESTROYED BY FIRE

William Killion of Near Gaynor Loses Big Barn—Estimated Loss Is \$1,000—No Insurance.

Fire of unknown origin totally destroyed a barn last night for William Killion, at his farm one mile south of Gaynor City. The fire was well under way when it was discovered about 11 o'clock. About ten tons of hay, four sets of harness and several farm implements were also destroyed. The loss is estimated at about \$1000.

Speaking of Winter

Most of us think in this connection of filling the coal bins and getting out the blankets, but we know also that it includes the FURNACE HEATING SYSTEM, ROOF, EAVE TROUGHS, VENTILATION, ETC.

Most home owners know they have something in this line that will need repairing and that something new should be installed before another winter rolls around.

XXth CENTURY Single Register Heater

The XXth CENTURY single register heater is free from drawbacks of other furnaces known as "pipeless."

The XXth CENTURY improvement consists in having a separate duct to convey the cold air to the heater, and as a result avoiding the difficulty perplexing the pipeless furnace makers. The method of installation heretofore practiced is little short of a failure.

By the XXth CENTURY improved method of installing, the warm air only goes up inside the furnace casing, with nothing to interfere with its free flow. The cold air is taken down through the same register but is carried by a separate duct into the casing, where it is warmed, purified and returned to the living rooms above.

THE XXth CENTURY HEATING & VENTILATING CO. does not recommend one-register heaters except in cases where all the rooms to be warmed are properly connected, and then only in case the conditions are such that a competent heating expert pronounces them suitable.

As a matter of course, a XXth CENTURY Heater will furnish as much heat with a single register as with more. It is not so much a question of quantity as of distribution. For well connected rooms and for storerooms this system of heating is ideal, is inexpensive and can be recommended.

Also—for instance, we want to explain the merits of XXth CENTURY FURNACES—and if it is about heating, let us show you some modern ideas as to how a heating plant should have two functions, FIRST—to make heat economically, SECOND—to distribute it properly.

Our workmen understand and know how to properly install furnaces and heating plants and by getting the work done now you will be the gainer.

Drastic Food Regulations Narrow John Bull's Girth.

NO BREAD IS THROWN AWAY.

When Piece Is Found In Ash Can by Police Householder Is Fined \$5—None Permitted to Have More Than Five Ounces of Meat at Any Meal.

Washington.—John Bull is wearing his belt tighter than before the war in the effort to conserve food, according to an American economist whose observations during a recent stay in England have been digested and made public by the office of food administration here. He says he was hungry continually because he simply couldn't get enough to eat.

Regulations of the ministry of food, under Lord Rhonda, controlling the serving of meals in public eating places

Photo by American Press Association. LORD RHONDA.

are exact and detailed and are enforced. One may have not more than five ounces of meat at any meal, and this means meat in the kitchen as it comes from the butcher. When it comes to the table as edible meat it is half that weight.

Nor may one have more than two ounces of bread, which must be at least twelve hours old, or more than two-sevenths of an ounce of sugar at any meal. The London bakers are making rolls of one ounce and two ounces each.

The regulation against waste is drastic. No bread may be thrown away. A piece of bread was found in an ash can by the police. The householder was fined \$5. One hundred and fifty pounds of stale cake was found thrown out behind a restaurant. The proprietor was fined \$100.

No light pastries, muffins, crumpets or fancy tea cakes may be made. No currant or milk bread may be made nor any sugar be used in making any bread.

In addition to the governmental regulations the food controller carries on continuously a strong propaganda for voluntary rationing and food saving in the home. All households are asked to limit their consumption of bread to four pounds a week a person, of meat to two and a half pounds and sugar three-quarters of a pound.

Those families agreeing to do this put up in a window, facing the street so that all may see, a conspicuous card bearing the legend, "In honor bound, we adopt the national scale of voluntary rationing."

This pledge of voluntary restriction has been widely accepted. In the little town of Church Stretton, containing 273 houses, the card is displayed in 225. There are other records nearly as good. In some towns the average ration a person has been reduced to an amount below that asked for by the government.

PREACHES FROM ROCK.

Delivers Annual Sermon From Point Where Old Church Stood.

Petersburg, Ind.—The Rev. William Chesser preached his twenty-second annual sermon "On the Rock" at a point where the old Flat Creek church once stood at White Oak.

The land was deeded to the General Baptist church by William Hays with the understanding that when it ceased to be used for church purposes the land on which the church stood was to revert to the heirs.

Twenty-two years ago the church was destroyed by fire, but once each year the Rev. Mr. Chesser, who was minister at the time the church was destroyed, returned and delivered a sermon from one of the cornerstones of the church, saving the land to the congregation. The Rev. Mr. Chesser is now past seventy-five years old. The congregation hopes to rebuild the church.

The Shenandoah team is a salaried team composed of players who were formerly with league teams. The Federals will also present a strong line-up and a fast game is expected when the two teams clash.

Returned From Camping Trip.

Mrs. Laura Hickman and daughter, Miss Bonnie, Miss Ada Stanton of Fillmore, Henry Gannan of Gilman City and Guy Wood of Weatherby, Mo., who have been camping for the last week at Big Lake, returned last night to Maryville. Miss Stanton and Mr. Wood will return to their homes today.

Miss Ford to Columbia.

Miss Mary Frances Ford left yesterday for Columbia, Mo., where she will make her home in the future. Her mother, Mrs. L. W. Ford, will go to Columbia in a few days.

Back From Auto Trip.

Clum Price and Alva Hill returned last night from an 1800 mile auto trip to Chicago and other points in the north. They were gone two weeks. The return trip was made through Keokuk and Hannibal.

A calamity was narrowly averted by the prompt action of Dr. Lambie, S. C. Picken and other delegates at the closing meeting of Tarkio's big missionary conference when the painting and drapery around the stage was set ablaze by crossed electric wires. Though the fire reached well toward the roof of the big tent these men tackled bare-handed the burning draperies and succeeded in tearing them down and smothering the flames. Dr. Lambie had one hand severely burned, says the Avalanche.

Three Ray county Sunday schools, Richmond, Orrick and Friendship Christian schools, have planned a big picnic in the Denham woods to which they have invited neighboring Sunday Schools. The staff of the Richmond Missourian had prepared to attend this picnic last week when they were obliged to announce regretfully that it had been postponed until August 17. They comforted themselves with this bit of philosophy: "The chickens will be that much larger."

To complete the registration begun last week the Andrew County women have provided for a booth at the Savannah Chautauqua where every effort will be made to get as full a registration as possible. Of the 125 women who registered in Savannah the Reporter says 95 registered for service in their home town, 21 anywhere in the United States, and 9 offered to go anywhere they might be needed.

There are teeter boards and merry-go-rounds that Tommy Conklin made

on the Savannah school grounds, says the Reporter; and last June at the close of school this jolly janitor treated all the children of grades 1, 2 and 3 to ice cream cones. The children enjoy Tommy because he treats them just as if they were his own children.

There is a man on North Main St. who will be prosecuted for cruelty if his neighbors can prove his guilt, says the Trenton Times. He caught a cat, saturated its fur with kerosene and set it afire. The agonized animal went down the street and only good luck prevented it from running under a barn or house or from setting fire to any person. It was quickly caught and put out of its misery.

NOTICE.

Have your feet treated. Dr. Tandy is at the Bainum Hotel. Will make residence calls. Phone Hanamo 172. 6tf.

A lawn social conducted by the Progressive Homemakers Club of Scott school district, Worth county, yielded \$33.60 to be spent for material for garments for the comfort of the soldiers.

Among the guarantors of the Chautauqua is a woman who lives ten miles from town yet she is always one of the first to sign up for another year. Her name is Mrs. Laura A. Watson, and she says that the Chautauqua is worth ten dollars to her family over and above the cost of tickets.

Frank McClain of Parnell is in Maryville on business today.

WILL APPEAR AGAIN

MANY REJECTED MEN WILL BE RE-EXAMINED DUE TO CHANGES.

NEW REGULATIONS SENT

Will Take In Many Men Already Rejected on Defects in Height, Weight, Teeth or Hearing.

Many men who were rejected in the examinations given this week by the local exemption board on account of under weight, eyes, ears or teeth, will have to be re-examined, according to notice received by the board this morning of the revised regulations to govern physical examination, as issued yesterday by Surgeon General Gorgas of the army. The changes deal for the most part with questions of proportionate weight and height and may result in the acceptance of a number of men who were rejected heretofore on physical grounds.

The local board was somewhat at sea today in knowing exactly how to proceed. They were busy at work in sorting out the examination papers of the men who appeared this week. They will not get to work on the claims for exemptions for several days yet as the accepted man has seven days in which to file his claim and affidavits. The board was also undecided about whether to call more men for physical examination, as the indications are that enough men who were in the first call will be able to pass the new examination to fill up the county's quota of 202 men.

The new regulations granted an underweight of from five to six pounds for men between sixty-four and sixty-seven inches in height; seven to eight pounds between sixty-seven and sixty-nine inches; nine to ten pounds between seventy and seventy-four inches, and twelve pounds above seventy-five inches. The effect of the instructions is to reduce the normal weight requirements for tall men.

An additional half-inch allowance on chest expansion also is allowed to men above sixty-eight inches in height where there is no sign of disease.

Men with poor teeth will also be more closely scrutinized hereafter. Where dental work will restore the teeth they will either be enrolled and the work done by army dentists, or allowed time to have the work done for themselves.

A punctured ear drum is found to be no barrier, providing the hearing is half normal. Modifications are made also in the sight requirements, which will allow physicians to accept men despite some defects of vision.

Local boards are urged not to stop (Continued on page 2.)

MADE CANVASS OF HIGHLAND

Mrs. A. R. Robinson Urges Women to Register—Booth Will be Located at Wallace Farm.

Mrs. A. R. Robinson, chairman of the Highland district, made a thorough canvass of that vicinity Wednesday in the interest of women's registration day, Saturday. A place has been provided for registration at the foot of the Wallace Hill on the Lee road northeast of Maryville. The women in charge will be Mrs. Robinson, chairman; Mrs. Kittle Young of Kansas City, who is a guest at the home of her brother, Levi Wallace, and Miss Anna Hazel Wallace. Mrs. Young will be a valuable assistant, as she helped in registering 20,000 women in Kansas City on registration day, July 28.

ROBEY TO MONTANA

Maryville Boy Gets Good Position as Supervisor of the Consolidated Schools.

Mayor Robey received a letter this morning from his son, Donald, who is now at Menominee, Wisconsin, taking a special course at the Stout schools during his vacation. The young man has had charge of manual training department of the schools at Eugene, Oregon, for some time but has accepted a position as supervisor of the consolidated schools at Three Forks, Montana, for the coming year at an increase of \$300 per year in salary. He was offered an increase to remain where he was but thought the new location offered better opportunities. His many friends here will be glad to learn of his success in his chosen field. He is a bright, industrious young man and is losing no time in fitting himself for the best there is in his profession.

He will make a short visit here on his return from Wisconsin to the West.

Harold Staples, another Maryville boy, has accepted a position in the grade schools at Klamath Falls, Oregon, where he will teach the coming season.

TO TREAT THEM IN FRANCE

American Soldiers Wounded Will not be Sent Home, According to the Present Plans.

Special to The Democrat-Forum. American Training Camp, France, Aug. 10.—All American soldiers who are wounded will be treated in France, and none will be sent to the United States, according to the present plans of the officers in charge of the first expeditionary force. The closest cooperation between the army medical corps and the Red Cross is already assured.

Charles Miller of Burlington Junction was in Maryville on business yesterday.

PLANS FOR THE FAIR

FREE ACTS CONTRACTED FOR AND EXHIBITS PROMISING.

SEASON TICKETS \$2.25

Fine Racing Programs and Big Stock Show Will be Given—Fair Is During Week of Sept. 3-8.

Plans for the county fair in Maryville, September 3 to 8, are being arranged for and all of the free acts are contracted for, and the stock show and agriculture exhibits are very promising. Season tickets to the fair will be \$2.25. Single admission is 50 cents a day and 25 cents for the night show. There will be no pass out checks this year, A. O. Mason, president of the fair association, says, except the season tickets will have that privilege.

Mr. Mason, in speaking of the fair said today: "Everyone in the county should be interested in making it a success. Our agriculture exhibits should be big. Oats and wheat are being threshed and can be made ready for exhibition. Our crops as a whole were never brighter for good results and the farmers are all very well pleased with the outlook, and for that reason we should have our agriculture and floral hall departments filled."

"Our stock should commence to be getting ready now as it takes a little time to fix them up as we are getting the pens and stalls all ready for the occasion."

"As to the racing program we are looking ahead and have the promise of more horses and better ones than we have had heretofore. We have also plenty of entries so as to make our racing department assured. Some of the boys attended the Brookfield fair yesterday and have promises of some good horses from that point."

BOY SCOUTS WILL TAKE HIKE

To Go on a 4-Mile Trip to 102 River to Spend Saturday and Sunday.

The members of the Wolf Troop, Boy Scouts, will take a four-mile hike tomorrow morning and will pitch camp near the 102 river near the Carr bridge where they will spend Saturday and Sunday. Scout Master A. M. Crooke and his assistant Elmer Holt, will accompany the boys.

The scouts will leave on their hike at 7 o'clock. Instructions will be given the boys in signal work following the same code as used in the army and navy, and the setting up of the camp.

The Scouts who will take the hike are John Price, Arthur Garrett, Truman Landon, Jack Jones, Lawrence and Orena Masters, Floyd Cook, Francis Burris, Gerald Keef, George Harman, Allen Shupe, Glenn Trullinger, Wesley Hagins and Martin Peniston.

TO AMBULANCE SERVICE

Money From Sale of "The President's War Message" Will go to Boys in France.

In the Alderman-Yehle Dry Goods store are twenty-five small books called "The President's War Message," which was delivered at a joint session of both houses of Congress, on April 2, 1917.

These books which are on sale, were placed in the store by the Grosset and Dunlap Publishing Company, and the money from the sale of these books will be turned over to the American Ambulance Field Service in France.

Grosset and Dunlap have succeeded in sending two units to France from the sale of these books. A number of books have been sold.

THE 6th ORDERED TO DUTY.

To Entrain Tonight for Nevada—The Fourth Is Expecting Orders. Special to The Democrat-Forum. Nevada, Mo., Aug. 10.—General Clark issued orders today for the Sixth Missouri Regiment to entrain tonight for Nevada.

The Fourth Regiment is still in St. Joseph, but railroad cars have been furnished and the boys expect orders to entrain at any time.

Judge and Mrs. George Hepburn and family and Mrs. Hepburn's mother, Mrs. Roberts of Denver, were in Maryville today.

NEW ORDERS ISSUED

BY PROVOST MARSHAL TO LOCAL BOARDS TO MOBILIZE DRAFTED.

WILL HAVE ALTERNATES

To Replace Any Missing Men—Boards Urged to Reduce Discharges for Dependency.

Regulation under which the new national army will be called to the colors beginning Sept. 1, were issued last night by Provost Marshal General Crowder. They detail the program under which every soldier of the draft army will be accepted by the adjutant general of the training cantonment to which he is assigned.

Two hundred thousand of the first 687,000 will be called up to Sept. 1, and forwarded to their camps before Sept. 5. Assembling levies at entraining points, providing shelter, food and transportation and giving their actual induction into military life, is entrusted to civilian local boards. Until the men reach camp they will not be in contact with uniformed officers.

The actual call for men will go from the provost marshal general to the state adjutant general. Each local board will be informed of its quota and the adjutant general will fix the date when men from his state shall entrain for camps.

From the time specified for reporting to the local board for military duty, each man in respect of whom notice to report has been posted or mailed, shall be in the military service of the United States.

5 Alternates From Each County.

For each county five alternates will be summoned to board headquarters in addition to men selected to fill the board quota. They will be held at the assembling point until train time to fill in vacancies should any of the levy fail to report.

The board will select one man from the levy to place in charge of the party for its trip and he will name a second in command. The other men will be told that orders of these two men must be obeyed under pain of military discipline.

Final verification of the list will be made just before entraining and if any one is missing an alternate will be sent in his place.

Boards to Gather Up Stragglers. After the departure of the levy for camp, the local boards will gather up stragglers. If there is evidence of willful violations of orders the offender will be reported to the adjutant general of the army as a deserter and the local police will be asked to arrest him on sight and turn him over to the nearest army post for trial. Where there was no intention to desert and the missing man reports of his own will, the board will send him on to camp with an explanation and a recommendation as to his culpability.

Arrived at the camp, the party will undergo final physical examination by army doctors. If any are rejected the local board will be notified and an alternate sent forward for each case.

Must Reduce Discharges.

Wholesale claims for exemption from the army draft, reported from many sections, caused Provost Marshal General Crowder to telegraph the governors of the states that local boards must "reduce discharges for dependency to a far more restricted class and very necessitous and clearly defined circumstances."

In some districts 80 per cent of registrants are filing claims for discharge on the ground of dependent relatives. Such a condition indicates, Gen. Crowder said, unfair advantage being taken of regulations designed to protect men who properly should be exempted from military service and threatens to interfere seriously with raising the national army.

IN CONFERENCE WITH KAISER

Chancellor Michaelis and Austrian Ambassador Received in Audience by the Kaiser.

Zurich, Aug. 10.—German Chancellor Michaelis, Field Marshal Archduke Frederick of the Austrian army, and the Austrian ambassador have been received in audience by the Kaiser, according to advices received from Berlin today. It is assumed that the audience granted by the Kaiser took place at the German great headquarters.

MANY AT THE PICNIC

A FINE TIME AT SUNDAY SCHOOL ENTERTAINMENT YESTERDAY.

DUNKARD SCHOOL WINS

Secures Loving Cup for Scoring the Most Points in Track Meet—An Annual Affair.

About 800 persons attended the Sunday school picnic held yesterday at Gaynor City. Seven different Sunday schools were represented. They were: Dunkard, New Hope, Baptist, Maple Grove Methodist, Gaynor Methodist, Gaynor Christian, Parnell Methodist, and the Protestant Methodist and Baptist organization at Parnell.

A concert was given in the morning by the Sheridan band, after which followed an elaborate dinner, which had been prepared by the women of the community. A number of persons outside of the township were served.

A program which had been arranged by the different Sunday schools was given in the afternoon. A second concert was given by the band, and Dr. S. A. Colle, pastor of the First Presbyterian church of Maryville, gave an interesting address on "Sunday School Work."

One of the interesting features of the program was a drill by the Boy Scouts in uniform, directed by W. A. Stickle. A number of young ladies of the Maple Grove Sunday school gave a pretty flag drill, and Miss Mattie Evans of Parnell and Miss Verna Corp of Gaynor favored the audience with solos.

From 4 till 5 o'clock a track meet for the members of the Sunday schools was held. The Dunkard Sunday school scored the highest number of points, and was awarded a silver loving cup by the Holmes Jewelry store of Maryville and the township Sunday school association.

Jitneys Flourish in Kansas City.

Special to The Democrat-Forum. Kansas City, Aug. 10.—All indications are that no street cars will be moved here today. It is the third day without a wheel being turned and no violence has been committed. Three thousand jitneys are in service and doing a rushing business.

Guests at Duncan's. Mrs. A. L. Walt and little son, Billy Duncan, of Tulsa, Okla., are visiting Mrs. Walt's parents, Prof. and Mrs. E. F. Duncan of Maryville. Mrs. Mollie Kavanaugh of New Hampton, Mo., is also a guest of Professor and Mrs. Duncan.

MAKING PROGRESS

BRITISH CAPTURED VILLAGE OF WESTHOOK IN THEIR RUSH.

FRENCH ARE GAINING

Allies are Preparing for Another Infantry Drive in Belgium—Chemical Works Explosion.

Special to The Democrat-Forum. London, Aug. 10.—British troops completed the capture of the village of Westhook in their forward rush last night and also secured the remaining enemy positions on the new high ground known as West Hockridge, the war office announced today. Meanwhile the French continued to make progress east of Bieschoote and north of the town. A successful raid was conducted along a wide front east of Monchy.

Another Drive in Belgium.

London, Aug. 10.—British and French guns are preparing the way for another infantry drive in Belgium. The cannonading is particularly savage around Bieschoote and Harlebeke, where the artillery roars night and day without let up.

Explosion in Chemical Works.

London, Aug. 10.—An explosion in the chemical works last night is reported to have killed or injured a score of workers. Fourteen bodies have been recovered.

LATE TELEGRAPH NEWS.

Special to The Democrat-Forum. Springfield, Ill., Aug. 10.—Nine thousand coal miners of central and southern Illinois are on strike today, the majority demanding nine hours pay for eight hours work.

Clay Center, Kans., Aug. 10.—Ex-President Taft is sick in a local hotel. He took food this morning for the first time in two days and attending physicians say his condition is improving.

Salina, Kans., Aug. 10.—Fearing "cons eque nes" of second marriage before divorce is believed responsible for the suicide today of Florence Cole of Wakenney seven hours after she married Chris Fellers of Hays.

New York, Aug. 10.—All danger of a general strike of carpenters at work on government war construction throughout the country was avoided today when an agreement covering the points in dispute was signed here by contractors and labor representatives. The settlement is declared to be a complete victory for the carpenters.

The Second Epistle to Rowley

(and the last)

Really Rowley, you seem to get sore over something YOU started and don't want some more, but more you have coming and now will get your's, by way of remembrance, to even up scores. Why did you begin it? Just stay in the game. The race is just started; no use to go lame, if you can't ride your donkey, get onto another and spur your Pegasus; come right along, brother.

Why spill gallie acid all over your nighty whenever your muse or your mind becomes flighty? Naughty, real naughty. I wouldn't do that; it will just spoil your temper and roll you out flat. Take a drink of good nature to bring out your dimple. Don't take life so hard; it is easy and simple. Don't you know that sour critics kill all kinds of hope and that dirt throwing people should use lots of soap?

I am sorry, indeed, if you're going to quit. If you had kept going you might have been IT. You hardly will pick up a hot iron twice—if you start in again take this word of advice: If you can't say a good word, far better keep still. Your pecking and cackling just shows you are ill. Mort Smith is my friend and a gentleman too; he never comes meddling with me nor with you; attends to his business, helps people along, stands up for the right and does nobody wrong.

A SINGING FESTIVAL

(Continued from page 1.)

life, and it should have expression here in Nodaway county, just as it has expression in almost every other county all over the country.

"The main benefit of community singing is to get together everybody in Nodaway county, and to get them together in such a manner that they will enjoy getting together. It is an acknowledged fact that more happiness can be found in making music than in listening to it; that the active is preferable to the passive.

"The little singing that has been done thus far at the band concerts has already brought marvelous results. When the audience joined in singing 'The Star Spangled Banner,' while played by Kryn's band at Chautauqua, Mr. Kies, the manager of the Chautauqua, pronounced it wonderful. He said it was the best he had ever heard in a town of Maryville's size.

"In all the larger cities of the country, and many of the smaller ones, community singing has gained a firm hold. In New York on last Memorial Day, the people lined the streets for three miles and sang just for the love of singing. At Christmas time, when the spirit of good will reigns among men, there is a desire to get together and

sing, and the world would be a better place if the practice were continued throughout the year.

"I should like to establish a community chorus in Nodaway county with the sole object in view of bringing these people together, and to have a great singing festival in Maryville, such as the one we had in Red Oak, Iowa, where 15,000 people from miles around joined in song. It can be done, and must be done by the hearty co-operation of each and every individual in the county."

Miss Stella McDowell, who has been visiting for the last two weeks in Okmulgee, Okla., with her brothers, Ed and Frank McDowell, and in Ames, Okla., with her brother, Fred McDowell, returned last night to her home in Maryville.

All Choked Up With Catarrh? Why Continue Makeshift Treatment?

Sprays and douches will never cure you.

Catarrh is annoying enough when it chokes up your nostrils and air passages, causing painful and difficult breathing and other discomforts. But the real danger comes when it reaches down into your lungs.

This is why you should at once realize the importance of the proper treatment, and lose no time experimenting with worthless remedies which touch only the surface. To be

rid of Catarrh, you must drive the disease germs out of your blood.

Splendid results have been reported from the use of S. S. S., which completely routs from your blood the Catarrh germs, for which it is a perfect antidote.

—of course you want your business to be successful

Ten Dollars will not buy as much advertising as a thousand, but it will buy just as real advertising as a thousand. In many cases it is the small business that has the greatest need for advertising. Small beginnings seem to be fairly well established laws of nature. The ten dollar advertised business may grow to many thousands.

If a merchant expects to dispose of his goods he must talk about them. The people in your community must be shown. Of course you can have a personal talk with but few of the buyers. It is getting to be the fact now days that a big part of merchandise is sold before the buyer ever enters the store.

Use advertising display space that the reader will see. People are looking for the ads because this is the way many of them are doing their buying, through the advertising.

This season of the year is the opportune time for selling goods that will in a few weeks be no longer seasonable. If these goods are held over they will depreciate in value and even become unsalable. You can not sell a last year's style, as they will become later on. And unless you tell the buyers about your goods you can't expect to sell them.

Judiciously advertised goods are a paying investment. Because they turn the money of the shop keeper many times faster than the non-advertised goods. Non-advertising isn't saving money. It is a good way to lose money.

When you take into consideration the statistical fact that 86 per cent of the business failures are the non-advertisers, you can appreciate how big a factor advertising is in building up a business.

To the men who do not advertise this ought to be a mighty convincing proof that advertising has a great deal to do with a successful business

OUR ALASKAN PARK

It is Classed as One of World's Colossal Spectacles.

GRANDEUR OF THE SCENERY.

Mighty Mount McKinley, Most Lofty of All Our Country's Towering Peaks, Crowns the Titanic Glory of the Northwest of Uncle Sam's Reservations.

The national park in Alaska which congress created in the spring of 1917 is one of the monster spectacles of the world. To say that Mount McKinley rises 20,300 feet above sea level and that it is the loftiest peak in America is to convey no idea whatever of its grandeur. There are several mountains in the Himalayas which materially exceed its height, one which rises more than 25,000 feet above sea level, and yet Mount McKinley to the observer is loftier than any of these.

The reason is that the greatest Himalayas are seen from valleys 7,000 to 10,000 feet in altitude, while Mount McKinley rises abruptly from valleys 3,000 feet and even less in altitude. The visitor to the Mount McKinley National park will look up more than 17,000 feet to the double peak, the upper 14,000 feet of which are covered with perpetual snow.

This enormous mass is the climax of the great Alaskan range which extends roughly east and west across southeast central Alaska, separating the vast northern inland from the more populated country whose shores are the gulf of Alaska. The range parallels the mighty Yukon many miles to its mouth.

The reservation contains 2,200 square miles. Its northern slopes, which overlook the Tanana watershed with its gold mining industry, are broad valleys inhabited by enormous herds of caribou. Its southern plateau is a perpetual winter wilderness through which glaciers of great length and enormous bulk flow into the valleys of the south. In this National park, which the railroad now building by government into the Alaskan interior will open to the public, America possesses Alpine scenery upon a titanic scale.

From the stormy south Mount McKinley is wholly inaccessible. But from the plains of the north valleys of easy grade lead one from another to its foot.

"It is an awe inspiring region of massive mountains and ice capped peaks," Belmore Browne of the Campfire club testified before the senate committee on territories. "The Piedmont plateau that follows the range affords a beautiful roadway direct to Mount McKinley, and when you reach the plateau all difficulties vanish and you see a view that is unique on this earth. You see the huge mountain line of perpetual snow, rising like a great wall on the southeast. You can ride a pony to where Mount McKinley rises 17,000 feet above you in a glittering wall of snow and ice. It is flanked by stupendous mountains, which make a wonderful setting for the monster."

North of the vast mountain, however, is a rolling country dotted with beautiful lakes and forests and inhabited by enormous herds of caribou. In fact, the special reason why congress set apart the region at this time was to conserve the wild animal life in advance of the invasion of hunters which the new government railroad will bring into Alaska, the road as projected running within twenty miles of this greatest of nature's spectacles.

Charles Sheldon of the Boone and Crockett club told the senate committee that several times he has counted as many as 500 mountain sheep in a single day of ordinary travel and that herds of caribou numbering from 1,200 to 1,500 are frequently seen.

As a game refuge and breeding ground the new National park conserves Alaskan game which elsewhere is rapidly disappearing. As in the case of the Yellowstone National park, the reservation serves as a perpetual center of game supply for large neighboring areas.

These animals do not greatly fear man, because they have never been hunted. One can approach the great herds of caribou. There are also many Alaskan bear of great size.

An extensive educational campaign has been inaugurated by the department of the interior for the information of the people concerning the hitherto unknown quality and extent of our national parks, of their scenic and recreational possessions, under which public interest in our national parks is growing with unanticipated speed, and public realization, interest and practical use is the condition as well as the object of national parks development. Public patronage of the parks has increased rapidly and steadily.

Co-operation in the public interest has been promoted between railroads and the government, between concessioners and park managements and between parks. Large private capital has been induced to enter several national parks for the enlargement and improvement of hotel and transportation service. Prices to the public have been decreased wherever possible.

WOMEN AND PATRIOTISM.

Today the United States government, through President Wilson, is calling the women of this country in a spirit of true appreciation at a critical moment of the world's greatest war. What sort of record do the women of Nodaway County wish to make before the whole United States?

The appeal of country to them is to register their loyalty and patriotism without regard to their views on suffrage or on politics. The woman who registers today records her dignity on the muster rolls of the United States and pledges her dedication to the great cause to which the Nation has pledged its honor.

Some of the things you might mention on that registration blank, August 11.

If You Are Just a Young Girl.
Conservation by wearing modest, inexpensive clothes.

Helping mother around the house. Making and keeping a garden. Making surgical dressings. Helping can fruit and vegetables. Keeping on with your education.

If You Are an Unmarried Woman.
Teaching. Getting into father's office, store or factory.

Taking care of a soldier's family. Working as nurses' aid. Taking Red Cross classes.

Government service of any kind. Spreading the gospel that loafing for a woman is just as disgraceful as for a man.

If You Are a Married Woman.
Giving proper care to the bringing up of your children.

Doing your best to eliminate waste in your home.

Keeping household accounts. Giving up expensive luxuries.

Helping husband at the office.

Taking up stenography, typewriting or bookkeeping.

Learning to run the motor car—and take care of it.

Knitting and sewing for home and for the soldiers.

Keeping the family cheerful.

If You Are an Older Woman.
Knitting.

Sewing.

Taking care of the children.

If You Are a Working Woman.

DISCUSS REGISTRATION

Leaders of Movement Attend Meeting at Myrtle Tree—Another Meeting at Garment Factory.

Miss Jessie Parcher and Mrs. W. C. Van Cleve attended the meeting of about fifty members of the Myrtle Tree community club last night and explained the objects and operation of the women's registration to be held tomorrow. Much interest was manifested by the women of the club and indications are that there will be a large registration from that vicinity. The registration place for that district will be at the Myrtle Tree school house.

An explanation meeting will also be held this afternoon at the McDonald Garment factory where 40 women are employed.

BARN DESTROYED BY FIRE

William Killion of Near Gaynor Loses Big Barn—Estimated Loss Is \$1,000—No Insurance.

Fire of unknown origin totally destroyed a barn last night for William Killion, at his farm one mile south of Gaynor City. The fire was well under way when it was discovered about 11 o'clock. About ten tons of hay, four sets of harness and several farm implements were also destroyed. The loss is estimated at about \$1000.

Speaking of Winter

Most of us think in this connection of filling the coal bins and getting out the blankets, but we know also that it includes the **FURNACE HEATING SYSTEM, ROOF, EAVE TROUGHS, VENTILATION, ETC.**

Most home owners know they have something in this line that will need repairing and that something new should be installed before another winter rolls around.

XXth CENTURY Single Register Heater

The XXth CENTURY single register heater is free from drawbacks of other furnaces known as "pipeless."

The XXth CENTURY improvement consists in having a separate duct to convey the cold air to the heater, and as a result avoiding the difficulty perplexing the pipeless furnace makers. The method of installation heretofore practiced is little short of a failure.

By the XXth CENTURY improved method of installing, the warm air only goes up inside the furnace casing, with nothing to interfere with its free flow. The cold air is taken down through the same register but is carried by a separate duct into the casing, where it is warmed, purified and returned to the living rooms above.

THE XXth CENTURY HEATING & VENTILATING CO., does not recommend one-register heaters except in cases where all the rooms to be warmed are properly connected, and then only in case the conditions are such that a competent heating expert pronounces them suitable.

As a matter of course, a XXth CENTURY Heater will furnish as much heat with a single register as with more. It is not so much a question of quantity as of distribution. For well connected rooms and for storerooms this system of heating is ideal, is inexpensive and can be recommended.

Also—for instance, we want to explain the merits of XXth CENTURY FURNACES—and if it is about heating, let us show you some modern ideas as to how a heating plant should have two functions, **FIRST**—to make heat economically, **SECOND**—to distribute it properly.

Our workmen understand and know how to properly install furnaces and heating plants and by getting the work done now you will be the gainer.

LEAN DAYS, THESE

Drastic Food Regulations Narrow John Bull's Girth.

NO BREAD IS THROWN AWAY.

When Piece Is Found In Ash Can by Police Householder Is Fined \$5—None Permitted to Have More Than Five Ounces of Meat at Any Meal.

Washington.—John Bull is wearing his belt tighter than before the war in the effort to conserve food, according to an American economist whose observations during a recent stay in England have been digested and made public by the office of food administration here. He says he was hungry continually because he simply couldn't get enough to eat.

Regulations of the ministry of food, under Lord Rhonda, controlling the serving of meals in public eating places

Photo by American Press Association. LORD RHONDA.

are exact and detailed and are enforced. One may have not more than five ounces of meat at any meal, and this means meat in the kitchen as it comes from the butcher. When it comes to the table as edible meat it is half that weight.

Nor may one have more than two ounces of bread, which must be at least twelve hours old, or more than two-sevenths of an ounce of sugar at any meal. The London bakers are making rolls of one ounce and two ounces each.

The regulation against waste is drastic. No bread may be thrown away. A piece of bread was found in an ash can by the police. The householder was fined \$5. One hundred and fifty pounds of stale cake was found thrown out behind a restaurant. The proprietor was fined \$100.

No light pastries, muffins, crumpets or fancy tea cakes may be made. No currant or milk bread may be made nor any sugar be used in making any bread.

In addition to the governmental regulations the food controller carries on continuously a strong propaganda for voluntary rationing and food saving in the home. All households are asked to limit their consumption of bread to four pounds a week a person, of meat to two and a half pounds and sugar three-quarters of a pound.

Those families agreeing to do this put up in a window, facing the street so that all may see, a conspicuous card bearing the legend, "In honor bound, we adopt the national scale of voluntary rationing."

This pledge of voluntary restriction has been widely accepted. In the little town of Church Stretton, containing 253 houses, the card is displayed in 225. There are other records nearly as good. In some towns the average ration a person has been reduced to an amount below that asked for by the government.

PREACHES FROM ROCK.

Delivers Annual Sermon From Point Where Old Church Stood.

Petersburg, Ind.—The Rev. William Chesson preached his twenty-second annual sermon "On the Rock" at a point where the old Flat Creek church once stood at White Oak.

The land was deeded to the General Baptist church by William Hays with the understanding that when it ceased to be used for church purposes the land on which the church stood was to revert to the heirs.

Twenty-two years ago the church was destroyed by fire, but once each year the Rev. Mr. Chesson, who was minister at the time the church was destroyed, returned and delivered a sermon from one of the cornerstones of the church, saving the land to the congregation. The Rev. Mr. Chesson is now past seventy-five years old. The congregation hopes to rebuild the church.

The Maryville Federals will meet the Shenandoah Red Sox Sunday in a game which is to determine the baseball championship of Northwest Missouri and Southwest Iowa. The Shenandoah team is a salaried team composed of players who were formerly with league teams. The Federals will also present a strong line-up and a fast game is expected when the two teams clash.

Returned From Camping Trip.

Mrs. Laura Hickman and daughter, Miss Bonnie, Miss Ada Stanton of Fillmore, Henry Gannan of Gilman City and Guy Wood of Weatherby, Mo., who have been camping for the last week at Big Lake, returned last night to Maryville. Miss Stanton and Mr. Wood will return to their homes today.

Miss Ford to Columbia.

Miss Mary Frances Ford left yesterday for Columbia, Mo., where she will make her home in the future. Her mother, Mrs. L. W. Ford, will go to Columbia in a few days.

Back From Auto Trip.

Clum Price and Alva Hill returned last night from an 1800 mile auto trip to Chicago and other points in the north. They were gone two weeks. The return trip was made through Keokuk and Hannibal.

A calamity was narrowly averted by the prompt action of Dr. Lambie, S. C. Picken and other delegates at the closing meeting of Tarkio's big missionary conference when the flaring and drapery around the stage was set ablaze by crossed electric wires. Though the fire reached well toward the roof of the big tent these men tackled bare-handed the burning draperies and succeeded in tearing them down and smothering the flames. Dr. Lambie had one hand severely burned, says the Avalanche.

Three Ray county Sunday schools, Richmond, Orrick and Friendship Christian schools, have planned a big picnic in the Denham woods to which they have invited neighboring Sunday schools. The staff of the Richmond Missourian had prepared to attend this picnic last week when they were obliged to announce regretfully that it had been postponed until August 17. They comforted themselves with this bit of philosophy: "The chickens will be that much larger."

To complete the registration begun last week the Andrew County women have provided for a booth at the Savannah Chautauqua where every effort will be made to get as full a registration as possible. Of the 125 women who registered in Savannah the Reporter says 95 registered for service in their home town, 21 anywhere in the United States, and 9 offered to go anywhere they might be needed.

There are teeter boards and merry-go-rounds that Tommy Conklin made

on the Savannah school grounds, says the Reporter; and last June at the close of school this jolly janitor treated all the children of grades 1, 2 and 3 to ice cream cones. The children enjoy Tommy because he treats them just as if they were his own children.

There is a man on North Main St. who will be prosecuted for cruelty if his neighbors can prove his guilt, says the Trenton Times. He caught a cat, saturated its fur with kerosene and set it afire. The agonized animal went down the street and only good luck prevented it from running under a barn or house or from setting fire to any person. It was quickly caught and put out of its misery.

Have your feet treated. Dr. Tandy is at the Balmum Hotel. Will make residence calls. Phone Hanamo 172. 6-11.

A lawn social conducted by the Progressive Homemakers Club of Scott school district, Worth county, yielded \$33.60 to be spent for material for garments for the comfort of the soldiers.

Among the guarantors of the Chautauqua is a woman who lives ten miles from town yet she is always one of the first to sign up for another year. Her name is Mrs. Laura A. Watson, and she says that the Chautauqua is worth ten dollars to her family over and above the cost of tickets.

Frank McClain of Parnell is in Maryville on business today.
